

ALGEBRA SEMINAR

Duality of Gerbes on Orbifolds

Xiang Tang

Washington University in St. Louis

ABSTRACT: In this talk, we will introduce an interesting duality phenomenon about gerbes on orbifolds. We will present several results verifying this duality in the context of noncommutative geometry and symplectic topology. This is a joint work with H. Tseng.

MONDAY, DECEMBER 7, 2015

1:30 – 2:30 PM

ROOM 617, WACHMAN HALL
DEPARTMENT OF MATHEMATICS
